3)	<u>Troubleshooting.....</u>	<u>8</u>

1. Introduction

This Beautiful Extension allows you to find duplicate product images from your product list and from this list you can easily remove them by Magento mass-action or individual delete.

Remove Duplicate Product Images is really used for people who importing product data and running the same import process over and over, Suppose If some products import fail and you aren't sure exactly which ones so you run the product import process again but this process duplicates the product images and It's very difficult task to find which product has duplicate images.

To remove this type of headache and to save your huge amount of server space we have developed this splendid extension, after installing this extension you have to just press **FIND DUPLICATE IMAGES** button and you will get all duplicate product images list with its SKU and product name and which you can easily delete by Magento mass-action or Individual delete.

This extension is also used when migrating product data from other carts into Magento is that some products may have the same image or images more than once.

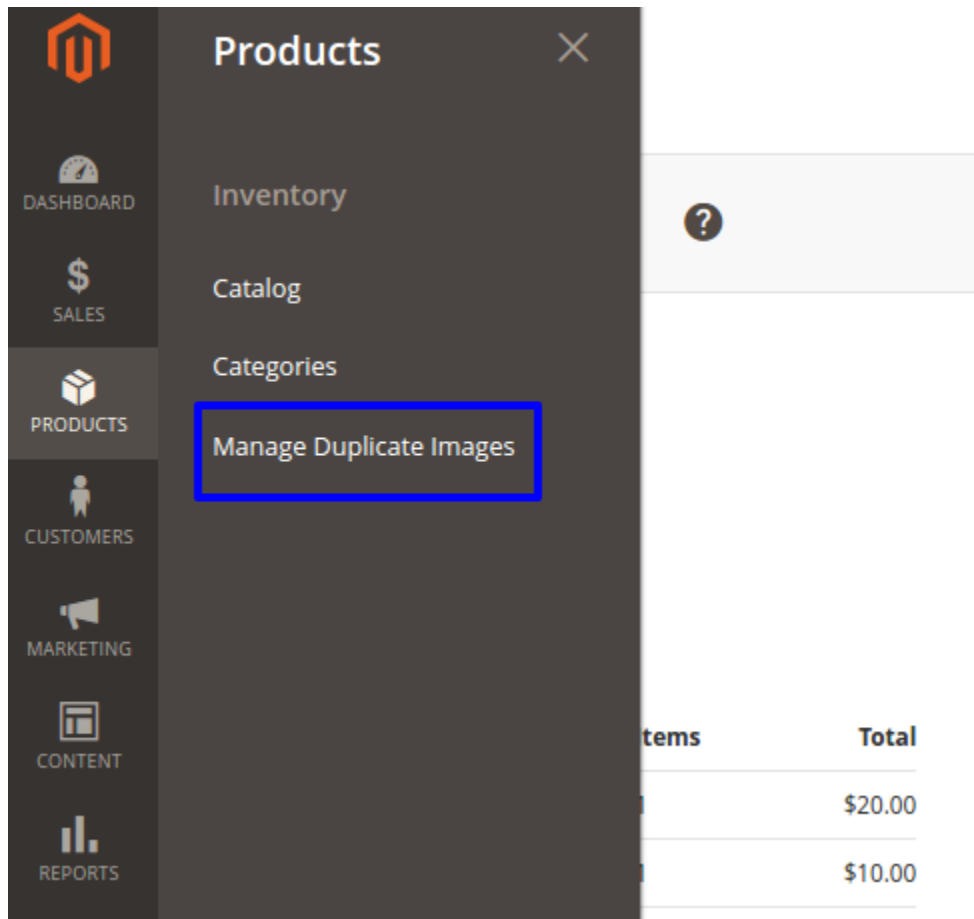

Remove Duplicate Product Images Features

- ❖ Easily find duplicate product images by pressing one button.
- ❖ Also remove duplicate product images from system memory so it saves your server space.
- ❖ Easy Installation and Ready to use.
- ❖ Plug & play.
